BRAND GUIDE ADDITION · 01 / 03

CONTROLS AND LINKED DETAILS

Use shape and placement to show what a control does. Keep routine actions and links in Text colour.

This proposal covers calendar cards, addresses, contact details and related controls. It extends the existing Void, Panel and Signal palette.

Confirm	**Primary action** A decision that changes data. Signal fill, white text and the existing 12 px cut corner.
Keep it	**Secondary action** A distinct action beside the primary action. Panel fill, Edge outline and square corners.
Details ⌄	**Disclosure** White label and 16 px chevron. No visible button box. Align the label with the card text.
Damrak 1 ⧉	**External destination** Underlined white text. Add a 16 px external arrow to an address block. Name Google Maps beside the address.
🗑 Delete	**Icon control** A 20 px neutral icon in a square 44 × 44 px target. Keep Delete in the card header; ask before deleting.
✓ Confirmed	**Result** A check icon and semibold text in a separated footer. Status copy is readable content and has no press effect.

Text #F2F2F2 · Muted #B5B5B5 · Panel #161616 · Line #3A3A3A · Signal #E0121A

BRAND GUIDE ADDITION · 02 / 03

DETAILS BELONG TO THE CARD

The disclosure sits below the summary. A thin divider groups it with the card. Expanded content follows the same left edge.

COLLAPSED · ILLUSTRATIVE

09:00

Dentist appointment

30 min | Damrak 1

Details

The full footer is a 44 px target. The label starts at the same inset as the title. A chevron shows that the card can expand.

Control placement

Keep month arrows and Today in their current square styles. Use the white disclosure for Details and Hide details. Email and attachments uses neutral text with a right chevron to open its source dialog.

Tap behavior

The card body may also expand or collapse it. Address links, contact links and Delete keep their own actions. Keep a visible disclosure for keyboard and screen-reader access.

Expanded rows

Use a 12 px Muted label and 15 px Text value. Allow 4 px between label and value and 16 px between fields. Put a long timezone on a separate line.

Notes
- Bring ID and booking reference ABC123456789.
- Call 020-1234567 if you are late.

Reminders
1 day, 1 hour before

BRAND GUIDE ADDITION · 03 / 03

ADDRESSES AND CONTACTS

Keep the address inside the expanded card. Show its destination before a tap. The external map belongs to Google Maps.

ADDRESS BLOCK · ILLUSTRATIVE

Address

Prins Hendrikkade 108
1011 AK Amsterdam

Opens Google Maps

Let the full address wrap. Align the arrow with its first line. Keep the content at the card inset.

CONTACT DETAILS · ILLUSTRATIVE

Call 020-1234567, email info@example.com, or visit https://example.com.

Inline links keep the body type and a visible underline. Plain booking references keep their body styling. Phone and email links open a dialer or compose window after a tap.

One neutral interaction language

REST

Details

Text colour, transparent fill.

PRESSED

Details

10% Text wash, square bounds.

KEYBOARD FOCUS

Details

2 px Text outline, 3 px offset.

Hit areas. Standalone links and controls have at least a 44 × 44 px target. Inline prose links keep their line flow; separate them into rows when space allows.

Feedback. Use a 6% Text wash on hover and a 10% wash on press. Corners stay square. The link underline remains visible in each state.

Failure. Keep the address visible and show “Could not open this link.” Keep this feedback in the current view.

Colour. Reserve Signal for its five existing roles. Disclosure, links and ordinary navigation use Text. Disabled controls use Dim and have no press effect.

Opening. Keep the encoded Google Maps search URL. HTTPS opens in a browser; phone and email links open external apps. Opening requires a tap.

Accessibility. Announce expanded/collapsed state and the external destination. Wrap long content at 320 px and enlarged text. Reduce decorative motion when requested.

> **Approval scope:** review the disclosure, address block and link styles before app changes. The address stays inside the expanded card, aligned with its other fields. The link opens Google Maps after a tap.
